About Us

Design That Matters

Designfo

Design Agency

Designfo is a creative design and digital solutions agency dedicated to transforming ideas into impactful visual experiences. We specialize in Brand Identity Design, Social Media Content, Video Editing, UI/UX Design, Marketing Creatives, and AI-powered digital solutions. Our goal is to help businesses, startups, and entrepreneurs build strong brands, connect with their audiences, and grow in the digital world.

Combining creativity, strategy, and modern technology, we craft designs that are not only visually appealing but also drive real business results. Every project we create is built with purpose, innovation, and attention to detail.

Vision

To become a globally recognized creative agency known for delivering world-class design, branding, and digital experiences that help businesses thrive in the modern digital landscape. We envision a future where creativity and technology work together to unlock limitless opportunities for our clients.

To be a leading global creative agency that transforms ideas into powerful visual stories through design, technology, and innovation.

Mission

To empower businesses and individuals through innovative design and digital solutions that inspire, engage, and create meaningful impact. We strive to deliver creative excellence while helping brands communicate their vision with clarity and confidence.

Creating innovative designs and digital experiences that help brands stand out, connect with their audience, and achieve sustainable growth.

Brands Worked With

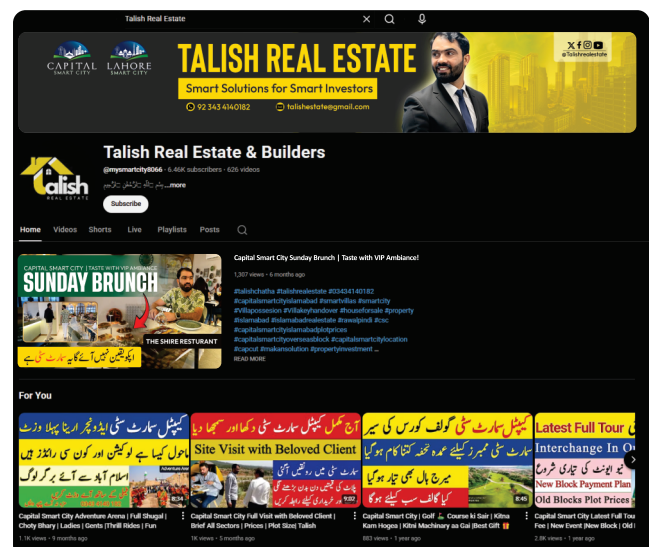

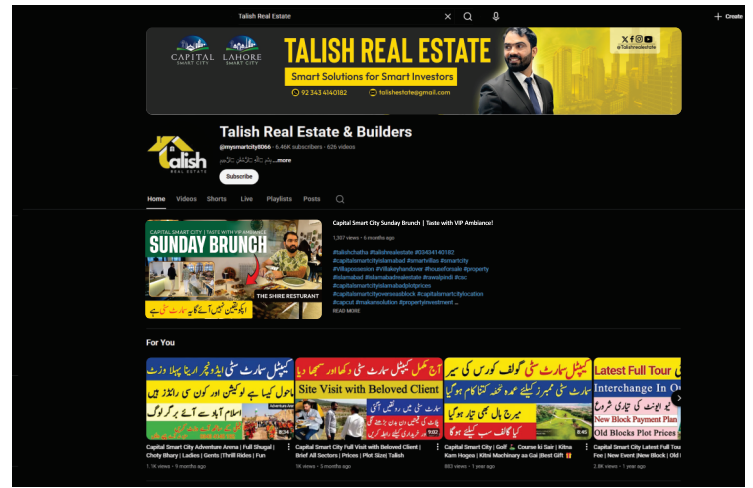

Branding

Talish Real Estate

Note: Talish Real Estate & Builders is a growing real estate agency focused on Capital Smart City and Lahore Smart City. With a newly established office and a passion for transparency, Talish shares real estate updates, development progress, and investment insights through engaging YouTube content — helping people make smarter property decisions.

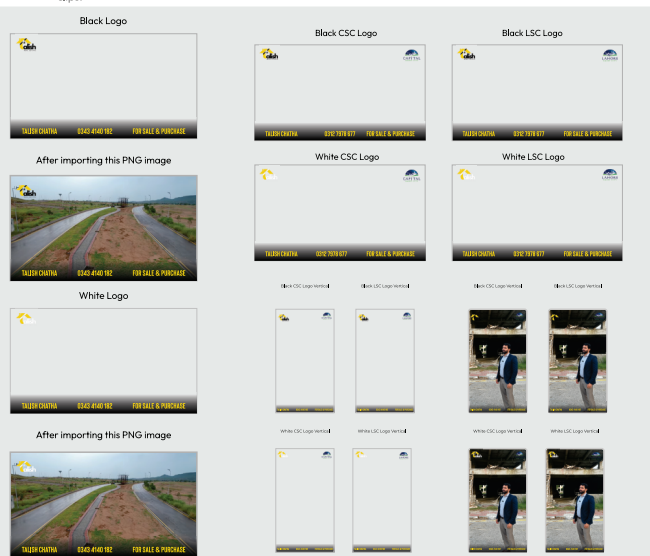

Digital Strategy for YouTube & Social Media

Digital Strategy for YouTube & Social Media

In today's fast-moving digital world, everyone wants quick and polished updates. It's not enough to just post raw videos anymore. Each video needs to include logos, contact info, and social media links to look professional and consistent. To make this easier, I created a transparent PNG with all the details already in place. You just add it on top of any video, and it's ready to post. I made one version for long videos and another for short clips or stories. This way, anyone can record, add the overlay, and instantly share a branded video. The same idea also works for animated GIFs.

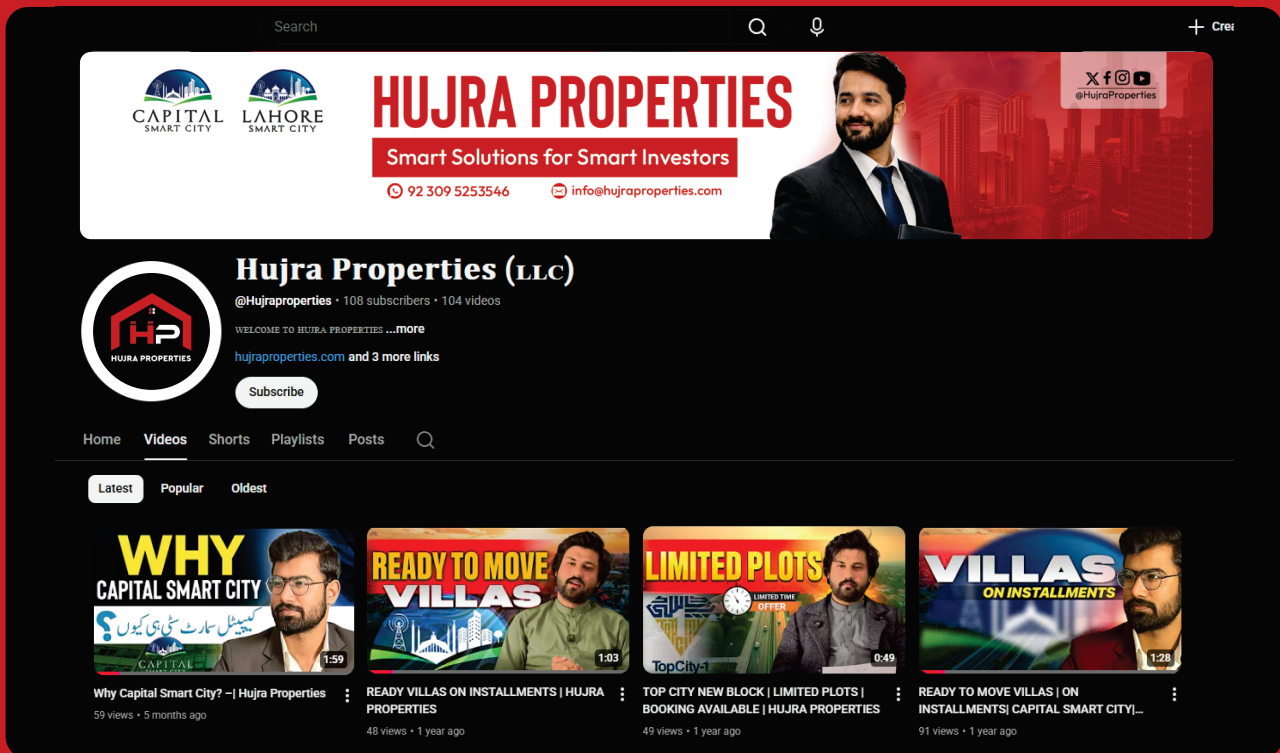

I created two formats for flexibility:

- A 16:9 wide transparent background for long-form videos.
- A vertical or short-format version for social media stories or short clips.

COMPLETE BRANDING

HUJRA PROPERTIES

Hujra Properties (Design Project)

From 2024–2026, I worked as an Art Director, leading the creative direction for branding, social media campaigns, video production, and advertising visuals. During this period, the company achieved major milestones by becoming authorized dealers of Capital Smart City, Lahore Smart City, and Park View City.

My role involved creating cinematic real estate content, social media designs, promotional campaigns, and engaging video strategies that helped strengthen the brand presence across multiple platforms.

Social Media

- Youtube: 108 subscribers
- Facebook: 2.5K Followers
- Instagram: 230 Followers
- Tiktok : 270 Followers

Digital Strategy for YouTube & Social Media

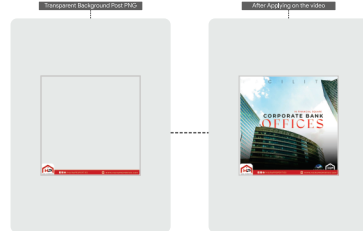

Digital Strategy for YouTube & Social Media

In today's fast-paced digital world, audiences expect content that is not only quick but also polished and professional. Simply posting raw videos is no longer enough. Every video should include branding elements such as logos, contact information, and social media handles to maintain a consistent and professional identity across all platforms. To simplify this process, I created transparent PNG overlays with all the essential branding details already included. These overlays can easily be placed on top of any video, making the content instantly ready for publishing. This allows anyone to record a video, add the overlay, and quickly share a fully branded and professional-looking post. The same concept can also be applied to animated GIFs for a consistent visual presence.

For maximum flexibility, I designed two separate formats:

A 16:9 widescreen transparent overlay for long-form videos.

A vertical/short-format overlay optimized for social media stories, reels, and short clips.

THUMBNAIL DESIGNS FOR ISMAIL BLOGGER

Ismail Blogger YouTube Channel (Design Project)

Worked as a YouTube Thumbnail Designer for Ismail Blogger for 3 months (Oct–Dec).

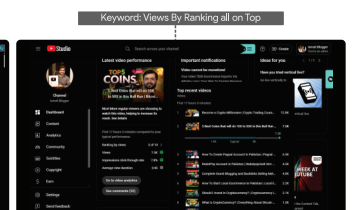

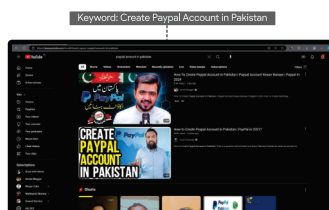

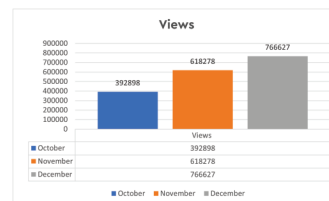

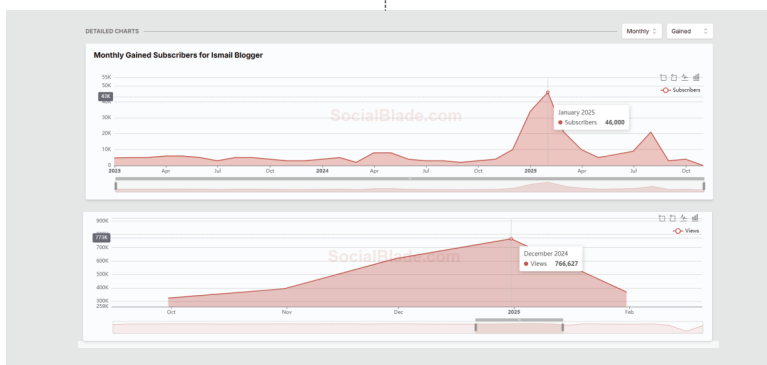

During this period, the channel grew from 190K to 280K subscribers.

I created clickable and engaging thumbnails that helped boost views and CTR.

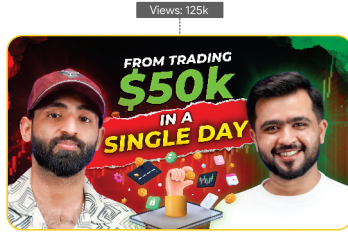

Results:

- ✓ Subscribers: +90K growth in 3 months
- ✓ Top video views: 260K, 160K, 154K, 125K
- ✓ Highest CTR: 27% (“How to make PayPal account in Pakistan”)
- ✓ Monthly performance:
 - ✓ October — 10K subs, 392K views
 - ✓ November — 34K subs, 618K views
 - ✓ December — 46K subs, 766K views

PRINT MEDIA FOR COMFORT ELECTRONICS

Introduction

Comfort Electronics is a fast-growing electronics installment business that makes home appliances, mobile phones, LED TVs, kitchen appliances, and other essential products affordable for everyday families through flexible daily payment plans. With the promise of "Easy Payment, Easy Living," customers can purchase products and pay as little as **PKR 100–300** per day using a structured installment system supported by custom-designed collection registers, customer record books, and promotional materials created by **Desigfo**. Starting with an initial investment of just **PKR 250,000**, Comfort Electronics successfully scaled its operations and built a business worth over **PKR 2.5 million** within 12 Months, demonstrating the power of accessible financing, organized payment management, and effective local marketing.
